## Professional Experience

---

### The Esport Company

Front End Developer

Johnstown, PA

June 2021 - Present (Part time Jan 2024 - Oct 2024)

- Led the development of a new web platform with Next.js and React, resulting in an 80x increase in users and a 30% boost in user retention and engagement.
- Created responsive, flat-style, and mobile-first designs for countless pages with Tailwind CSS and ShadCN components, helping reduce UI-related support tickets by 85%.
- Integrated real-time messaging with websockets, improving in-app communication and reducing match forfeits by 70%.
- Implemented reusable UI components including team matches, standings, and rosters to speed up feature development.
- Developed a custom graphics generator with React, allowing users to create and export branded visuals for matches, standings, and social media, helping reduce the graphic design workload.
- Regularly communicate with end users to gather UI/UX feedback, helping increase bi-yearly customer ratings by 40%.
- Collaborated in an agile team with backend developers to deliver features rapidly
- Optimized frontend load times by reducing bundle size and improving image loading.

### DirecTec LLC

Web Developer

Hollsopple, PA

Jan 2024 - Oct 2024

- Supported the company-wide migration from Google Workspace to Microsoft 365 by building user-friendly Sharepoint dashboards and interactive documentation.
- Developed an inventory management web app with an emphasis on mobile design, enabling staff to quickly track thousands of items and reducing lost inventory accidents by 50%.
- Developed a real-time display for an office TV using React and Zoho APIs, giving staff a clear visual of high priority jobs and improving team awareness and response times.
